Website JGilliam.com

Energetic new graduate with strong team, analytical, and critical thinking skills, looking to contribute my knowledge of software development within an evolving company.

EDUCATION

Jan 2015 – Dec 2018 **Bachelor of Science in Computer Science (GPA 3.2 / 4.0)**
University of Texas at Arlington

WORK EXPERIENCE

Aug 2015 – Present **Information Technology Assistant**
University of Texas at Arlington Police Department (UTAPD)

- Provide on-site diagnosis and resolutions for computer hardware and software problems
- Oversaw, trained, and managed 3 new UTAPD IT Student Assistants
- Created a web application using Python to shift alarm testing from paper to digital

PROJECTS

October 2018 **Lunch Meet | Hackathon**

- Worked on a team to build a React Native application in 24 hours at HackUTA
- A polling application that allowed friends to suggest and then vote a place to eat
- Utilized the Yelp RESTful API, React Native, Firebase Database, and CSS

May 2018 **JGilliam.com | Portfolio Website**

- Personal website developed as a summer project
- Utilized HTML and CSS
- Expanded my knowledge of cross platform compatibility

April 2018 **Escape Pod | Senior Capstone Project**

- Worked on a team to build prototype tabletop escape room
- Responsible for developing a computer vision combination matching game in Python using the inputs from a Leap Motion hand tracking sensor
- Fully designed documentation and UML diagrams
